

We need your views

We are planning to charge for some services which have been free until now*

What will the charges be for?

We are planning a modest charge for rat treatments, collecting bulky household waste, replacing wheelie bins and disposal of soil, plasterboard, rubble and tyres at household waste sites.

Tell us what you think

Visit www.leeds.gov.uk/EnvironmentConsultation between Monday 27 February to Friday 31 March 2017.

No internet?

No problem. Contact your local library or one-stop centre. They can help.

*Reduced funding and cost pressures mean we need to save over £80m by next March. These charges will help reduce cuts to frontline services.
